

Sam Twig
Groundworker at Blanchard Wells Ltd

Sam Twig talks about his experience of training to be a fully qualified Groundworker...

"I was attracted to the industry as I had family already working in construction so I knew what it involved. I started at the bottom of the ladder five years ago, making tea and clearing up, but it gave me a good basis and I was then able to take up the Apprenticeship challenge.

I stuck at it and am now a fully qualified Groundworker, having completed an NVQ L2 in Groundworks as well as forward tipping dumper, ride on roller and confined spaces training. It was a great achievement to get my tickets, and the knowledge I have now is amazing!

I specialise in pipe laying a drainage which I really enjoy and I am going to carry on working the industry for as long as possible. You get to meet new people all the time and pretty much build the future!"
